December 11, 2018

To the Honorable Mayor, Members of the City Council, and Citizens of the City of South Salt Lake, Utah:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with United States Generally Accepted Accounting Principles (GAAP) and audited in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the City of South Salt Lake (the City) for the fiscal year ended June 30, 2018.

This report consists of management's representations concerning the finances of the City of South Salt Lake. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, the management of the City of South Salt Lake has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of South Salt Lake's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of South Salt Lake's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of South Salt Lake's financial statements have been audited by Squire & Company, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of South Salt Lake for the fiscal year ended June 30, 2018, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified "clean" opinion that the City of South Salt Lake's financial statements for the fiscal year ended June 30, 2018, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of South Salt Lake was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of

South Salt Lake's Single Audit Report. GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of South Salt Lake's MD&A can be found immediately following the report of the independent auditors.

Profile of the City of South Salt Lake

The City of South Salt Lake is a fourth-class city incorporated in 1938 under provisions of the State of Utah. South Salt Lake City is located in Salt Lake County in the heart of the greater Wasatch Front area. The City of South Salt Lake currently occupies a land area of 7.03 square miles and serves a population of approximately 24,500. South Salt Lake is empowered to levy a property tax on both real and personal properties located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the governing council and allowable by state law.

The City of South Salt Lake has operated under the council-mayor alternative form of government in conformity with Utah Law (Section 10-3-12) since 1990. The seven-member city council performs all legislative functions and is responsible for, among other things, passing ordinances and adopting the budget. The mayor performs all administrative functions, oversees day-to-day operations, and appoints department heads and boards with the consent of the city council. The mayor is elected to serve a four-year term. City council members serve four-year staggered terms. Five of the city council members are elected by district and two are elected at large.

The City of South Salt Lake provides a full range of services including: police and fire protection, municipal court, the construction and maintenance of streets, roads, and other infrastructure, planning and zoning services, recreational activities and cultural events, solid waste collection and disposal, water and sewer utility services, and housing services. The City of South Salt Lake has two component units, the Redevelopment Agency of South Salt Lake, established in 1982, and the South Salt Lake Municipal Building Authority, established in 1996. The Municipal Building Authority currently has no assets, transactions, or budget. The Redevelopment Agency is governed by a board that is comprised of the city council, with the mayor serving as chief administrative officer. The Municipal Building Authority is governed by a board consisting of the city council. Additional information on the Redevelopment Agency can be found in Note 11 in the notes to the financial statements.

The annual budget serves as the foundation for the City of South Salt Lake's financial planning and control. The Uniform Fiscal Procedures Act adopted by the State of Utah governs budgetary procedures for the City of South Salt Lake. In compliance with this Act, the mayor presents a tentative budget to the city council for adoption no later than the first regularly scheduled city council meeting in May. The Redevelopment Agency budget is presented to the board as required by state law. The city council is required to hold public hearings on the proposed budget and to adopt a budget by June 30th. The council is required to adopt a final budget by no later than June 30, the close of the City of South Salt Lake's fiscal year. The appropriated budget is prepared by fund (e.g. general), function (e.g. public safety), and department (e.g. police). The mayor may make transfers of appropriations within a department. However, transfers of appropriations between departments require the approval of the city council. Budget-to-actual comparisons are provided in this report for the General Fund, Capital Projects Fund, and the Redevelopment Agency. The budget-to-actual comparisons for these funds, with appropriated annual budgets, are presented in the governmental fund subsection of this report.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the environment within which the City of South Salt Lake exists.

Local Economy By far the largest factor affecting the City of South Salt Lake, as well as the state and federal government, has been the gradual economic recovery. Statistics provided by the Utah Department of Workforce Services indicate the unemployment rate in Utah decreased in the past 12 months to 3.0% in June 2018 as compared to 4.0% in the U.S. In June 2017 Utah's rate was 3.4% and the national rate was 4.4%. The unemployment rate in Salt Lake County decreased to 3.4% in June 2017 from 3.4% in June 2017. The Utah Department of Workforce Services reports that approximately 49,200 jobs were created in the state in the past year but there are more people in the labor force looking for employment. So, generally speaking, enough jobs are being created annually to accommodate more people in the workforce.

Statistics provided by the United States Department of Labor and the Utah Department of Workforce Services indicate that all industry sectors in Utah, other than the natural resources/mining and information, have reported an increase in the number of jobs created. Over 47,900 jobs were created statewide in the past 12 months. Construction, Trade, Transportation, Utilities, Education, and Health Services sectors improved particularly well. The improvement in these sectors benefits South Salt Lake. South Salt Lake is home to several construction supply and manufacturing businesses. The Utah Department of Workforce Services anticipates that unemployment levels will remain constant through the next 12 months. Utah is among the top states for total job growth as well as private sector job growth.

With the state approaching full employment consumer spending will continue to improve. More discretionary income will be available to consumers leading to increased sales. Sales taxes, which are directly influenced by consumer spending, have improved noticeably across the county and state. Local governments, including South Salt Lake, rely on the sales tax to finance essential services. Due to improved economic conditions total sales tax revenue grew in South Salt Lake by 6.7% when compared to FY 2017. With the continuation of positive economic conditions, and the benefits of economic development efforts, the city anticipates continued increases in sales tax revenue in FY 2019.

Property tax revenue is expected to increase modestly in the coming year. With construction activity improving, an increase in assessed valuation due to new growth is expected. Also, new developments have been proposed, and when completed, will contribute to increased property tax revenue.

The Market Station redevelopment project experienced significant activity in the past year. A major grocery store chain opened an additional outlet in the project area in FY 2018. In addition, a 97 unit multi-family housing project is currently under construction and a financial services retail location is planned for construction in the near future.

Long-Term Financial Planning Approximately 35% of property within the city is exempt from property taxes. This condition is due to the fact that many county and regional public facilities are located within city boundaries. The Salt Lake County Adult Detention Center (jail), Utah Transit Authority facilities, Central Valley Water Reclamation Facility, Salt Lake County Solid Waste Transfer Station, Granite School District office/facilities and other public infrastructure are located in the city and occupy many acres of property.

In March 2017 an announcement was made by Salt Lake County officials that a new 300 bed homeless resource facility will be located in South Salt Lake. The center is scheduled to open in July 2019. The users of that facility will require services from the city, particularly police and emergency medical services.

As a result of the factors above, the city relies heavily on sales tax revenue to provide city services. Sales taxes allow the residents of South Salt Lake to receive the same level of services that residents of other Utah cities enjoy. City officials work diligently to maintain an environment that is conducive to business.

The city must be able to provide services for the facilities mentioned above as well as its residents and businesses. Due to the fact that the above public entities do not pay property taxes, the sales tax is used to finance adequate police, public works, and fire services.

The city has adequate cash reserves to fund cash flow requirements during the year. In the first few months of the fiscal year the city uses these cash reserves to cover cash requirements eliminating the need to issue tax & revenue anticipation notes. The city begins to receive sales tax revenue in September and property tax revenue in November.

Annually the city allocates as much sales tax revenue as possible into the capital improvements fund. The city utilizes a conservative approach to issuing debt and almost always uses a “pay as you go” approach to acquiring capital assets. Class C road funds, derived from gasoline taxes, are used to fund large road construction and maintenance projects. Funds are received six times per year and can be carried forward from year to year until projects are undertaken.

Legislation was approved at the state level in 2018 to make funding available to jurisdictions who provide public safety services to homeless resource centers. The city anticipates that it will receive funding in FY 2019 to partially offset costs incurred to provide public safety services to the homeless center.

Current Period Financial Events

As required by the Governmental Accounting Standards Board, GASB Statement 68 reports the city’s net pension assets and liabilities in FY 2018. Although the city is a member of the Utah Retirement Systems and relies on URS for all retirement activities on behalf of its employees, the city must still report its pro-rata share of pension assets and liabilities. The city’s share of the net pension liability decreased by approximately \$2,068,000 when compared to FY 2017 while the net pension asset increased by approximately \$424,000 during the same period. This was primarily due to improved investment results realized by the Utah Retirement System as well as actuarial increases calculated by URS.

The city received over \$2,700,000 in grants and assistance from federal, state, county, and private sources. Much of this funding is used to provide afterschool services to South Salt Lake, and neighboring, youth and adults. Programs which provide academic and prevention services are administered from 13 school based and community locations. Approximately 2,700 youth and adults are served through these programs. Other uses of the grant funding include law enforcement (\$332,000) and public improvements (\$160,000).

Sales tax revenue increased by approximately \$900,000 when compared to FY 2017. This amount represents an approximate increase of 6.7%. The city anticipates that sales tax revenue will increase in the ensuing year due to the factors stated earlier.

Approximately 50% of the residents and businesses in South Salt Lake are connected to the city’s waste water collection system. The South Salt Lake system is part of the Central Valley Water Reclamation Facility (CVWRF). In FY 2018 the CVWRF began a significant project to update the plant and add new treatment processes. The city’s portion of the costs was approximately \$3,200,000. The city participated in a financing arrangement to secure funding for these costs. The city is committed to remit approximately \$255,000/year for its portion of the obligation.

Awards and acknowledgements

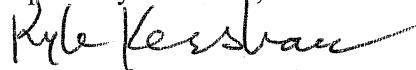

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of South Salt Lake for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2017. This was the sixteenth consecutive year that the city has received this prestigious award. In order to be awarded a Certificate of

Achievement, the city published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for certification.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and administration departments. I would like to express appreciation to all members of the finance department who assisted in the preparation of this report. I also appreciate the professional service and assistance rendered by the auditing firm of Squire & Company. Credit also must be given to the mayor and city council for their unfailing support for maintaining the highest standards of professionalism and integrity in the management of the finances of the City of South Salt Lake.

Respectfully submitted,

Kyle Kershaw

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of South Salt Lake, Utah

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Salt Lake as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Salt Lake as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 17, budgetary comparison information on pages 67 through 68, and pension schedules on pages 69 through 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of South Salt Lake's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison information for nonmajor governmental and capital projects funds, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, budgetary comparison information for sales tax debt service, leased equipment debt service, and capital projects funds, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary comparison information for sales tax debt service, leased equipment debt service, and capital projects funds, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audits of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2018, on our consideration of the City of South Salt Lake's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of South Salt Lake's internal control over financial reporting and compliance.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2018

As management of the City of South Salt Lake, we offer readers of the City of South Salt Lake's financial statements this narrative overview and analysis of the financial activities of the City of South Salt Lake for the fiscal year ended June 30, 2018. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets of the City of South Salt Lake exceeded its liabilities at the close of the most recent fiscal year by \$76,488,329 (*net position*). Of this amount, \$16,248,004 represents unrestricted net position, which may be used to meet the City's ongoing obligations to citizens and creditors.
- The City of South Salt Lake's total net position increased \$1,573,103 mainly due to governmental activities expenditures being less than expected. Also, governmental activity revenue increased modestly during the fiscal year which led to the increase in net position.
- As of the close of the current fiscal year, the City of South Salt Lake's governmental funds reported combined fund balances of \$24,005,467, an increase of \$535,307 in comparison with the prior year. Approximately 18.2% of this amount (\$4,372,481) is available for spending at the City's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unrestricted fund balance (classified as *unassigned fund balance*) for the general fund was \$4,372,481, or approximately 17.1% of total general fund expenditures.
- Total sales tax revenue increased by approximately \$905,000 in fiscal year 2018. This represents an increase of approximately 6.7%.
- The City received approximately \$2,410,000 in federal grants during the fiscal year. This represents a decrease of approximately \$92,000 (3.8%) when compared to fiscal year 2017. The funding was used for the following purposes: provide afterschool youth programs (\$2,007,000), victim assistance (\$198,000), housing programs (\$43,000), and other uses (\$162,000).
- The City received approximately \$319,000 in private assistance. These funds were used primarily to provide youth afterschool programs. In addition, South Salt Lake received approximately \$1,061,000 in state aid for transportation projects.
- The City replaced three aging ambulance vehicles with three new, fully-equipped vehicles at a cost of approximately \$599,000.
- Fiscal year 2018 was the first full year in which the City assessed impact fees for parks projects. Approximately \$453,000 in funding was collected during the fiscal year. Those funds as well as future collection will be directed to finance future projects.
- The City participated with the Central Valley Water Reclamation Facility which issued a \$28,600,000 bond to fund capital improvements at the wastewater treatment plant. The City's commitment to fund future debt service is approximately \$3,300,000 total, with an annual commitment of approximately \$255,000.

Overview of the Financial Statements

This discussion and analysis provided here are intended to serve as an introduction to the City of South Salt Lake's basic financial statements. The City of South Salt Lake's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes supplementary intended to furnish additional detail to support the basic financial statements themselves.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of South Salt Lake's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of South Salt Lake's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of South Salt Lake is improving or deteriorating.

The *statement of activities* presents information showing how the City of South Salt Lake's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of South Salt Lake that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of South Salt Lake include general government, public safety, highways and public improvements, parks, recreation and culture, and redevelopment. The business-type activities of the City of South Salt Lake include water and sewer utilities, solid waste collection, ambulance services, and housing.

The government-wide financial statements include two component units, the Redevelopment Agency of South Salt Lake and the Municipal Building Authority of South Salt Lake. Financial information for the component units is blended with the primary government.

The government-wide financial statements can be found on pages 21-23.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of South Salt Lake, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of South Salt Lake can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

The City of South Salt Lake maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the capital projects fund, and the redevelopment agency, which are considered to be major funds. Data from the other governmental fund is presented as a nonmajor fund.

The City of South Salt Lake adopts annual appropriated budgets for its general fund and redevelopment agency. Budgetary comparison schedules have been provided for the general fund and redevelopment agency to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 24-27 of this report.

Proprietary Funds. The City of South Salt Lake maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of South Salt Lake uses enterprise funds to account for its Water and Sewer Utilities, Solid Waste Collection, Ambulance Services, and Housing Funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for its Insurance Reserve Fund. Because this service predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Utility, Sewer Utility, and Ambulance Services, all of which are considered to be major funds. Data from the other two proprietary funds are combined into a single aggregated presentation. Individual data for each of these nonmajor proprietary funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The basic proprietary fund financial statements can be found on pages 28-32 of this report.

Notes to the Financial Statements. The notes provide additional financial information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35-64 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the budgetary comparison schedules for the general fund and the redevelopment agency, as well as net pension liability schedules. Required supplementary information can be found on pages 67-72 of this report.

The combining statements referred to earlier in connection with nonmajor proprietary funds, as well as budgetary comparison schedules for the debt service and capital projects funds, are presented immediately following the required supplementary information. These statements and schedules can be found on pages 75-81 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the City of South Salt Lake, assets exceeded liabilities by \$76,488,329 at the close of the most recent fiscal year.

By far the largest portion of the City of South Salt Lake's net position (73.6%) reflects its investment in capital assets (e.g., land, buildings, improvements, machinery and equipment, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of South Salt Lake uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City of South Salt Lake's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of South Salt Lake's net position (5.2%) represents resources that are subject to external restrictions on how they may be used. The remaining 21.2% (\$16,248,004) is unrestricted and may be used to meet the City's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City of South Salt Lake is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The City of South Salt Lake's overall net position increased \$1,573,103 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Governmental Activities. During the current fiscal year, net position for governmental activities increased \$1,891,843 from the prior fiscal year for an ending balance of \$56,802,270. The increase in the overall net position of governmental activities is primarily due to an increase in recognized sales tax revenue. Also, expenditures in the general fund were less than expected. Several capital fund projects were delayed or carried over until the next fiscal year.

CITY OF SOUTH SALT LAKE

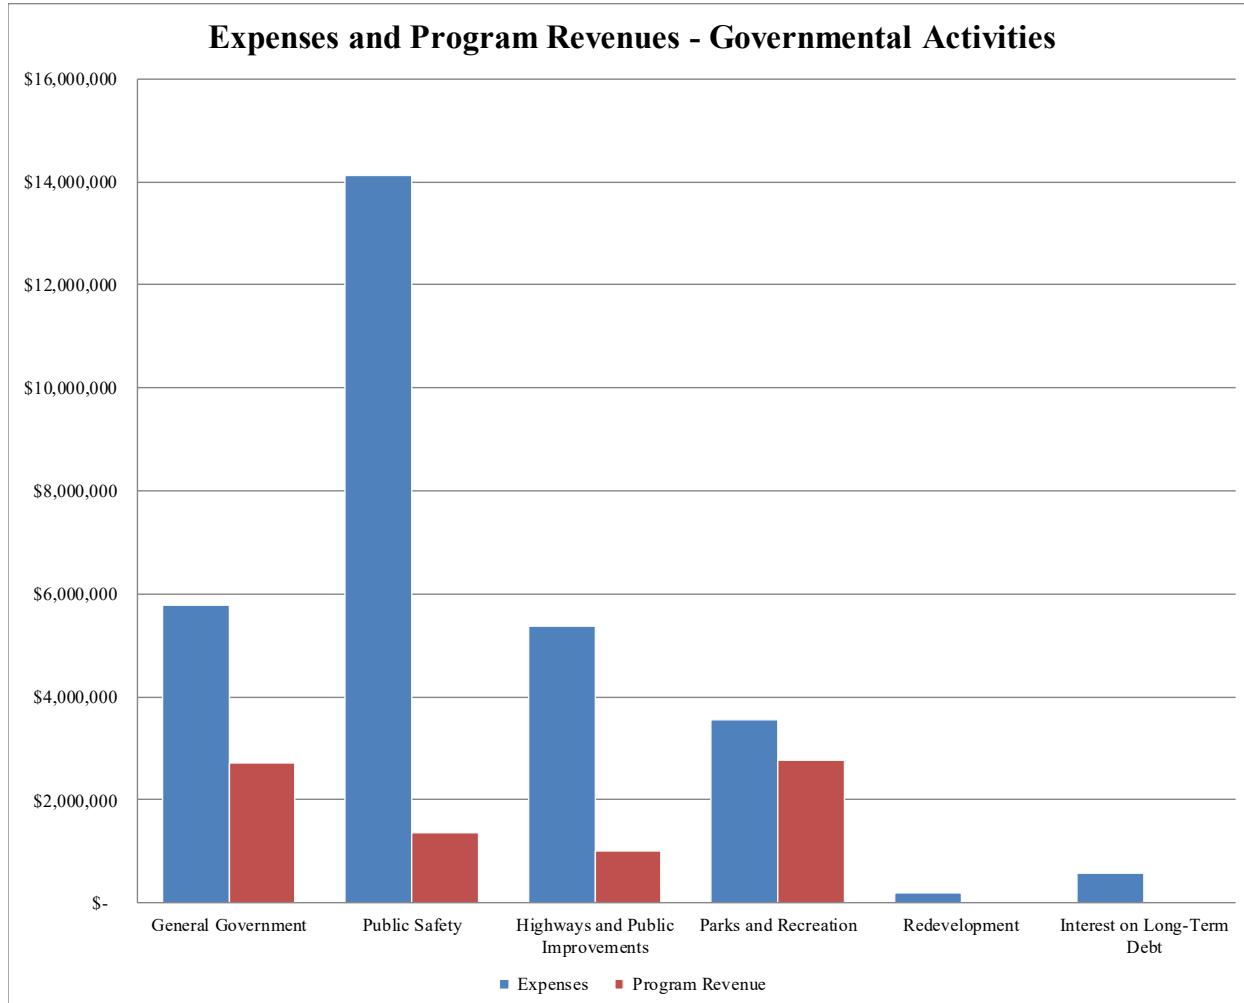

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Business-type Activities. For the City of South Salt Lake's business-type activities, overall net position decreased to an ending balance of \$19,686,059. The total decrease in net position for business-type activities was \$318,740 from the prior fiscal year. This condition is mainly due to the fact that sewer fund revenue was approximately \$200,000 less than expected. Also, expenditures in the water fund were slightly larger than anticipated without a corresponding increase in revenue.

Financial Analysis of the Government's Funds

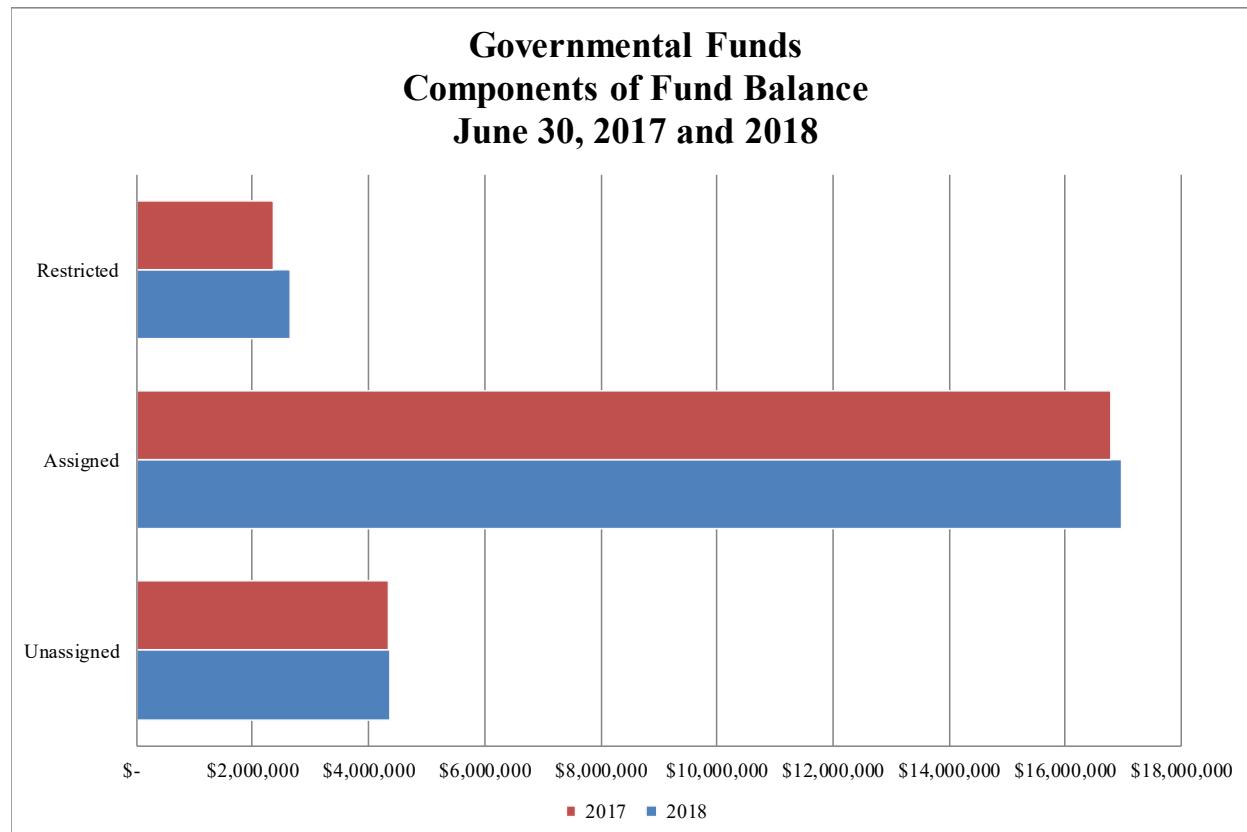

As noted earlier, the City of South Salt Lake uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City of South Salt Lake's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of South Salt Lake's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City of South Salt Lake itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City of South Salt Lake's City Council.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

At June 30, 2018, the City of South Salt Lake's governmental funds reported combined fund balances of \$24,005,467, an increase of \$535,307 in comparison with the prior year. Approximately 18.2% of this amount (\$4,372,481) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is either *restricted* or *assigned* to indicate that it is 1) legally required to be maintained intact (\$2,655,310) or 2) assigned by the city council for particular purposes (\$16,977,676).

The general fund is the chief operating fund of the City of South Salt Lake. At the end of the current fiscal year, unassigned and total fund balance of the general fund was \$4,372,481. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total general fund expenditures. Unassigned and total fund balance represents approximately 17.1% of total general fund expenditures.

The fund balance of the City of South Salt Lake's general fund increased by \$22,219 during the current fiscal year. This increase is primarily due to expenditures being less than expected. It was estimated that fund balance would decrease by approximately \$948,000 at the beginning of the fiscal year, but due to open employee positions and conservative spending, a modest increase in fund balance was experienced. All departments were under budget in expenditures.

The capital projects fund, a major governmental fund, had a \$585,140 increase in fund balance during the current fiscal year. The increase in fund balance was mainly the result of some large projects that were only partially completed. Only \$188,000 out of a budgeted amount of \$345,000 for a street lighting project were expended. Also, only about \$298,000 out of a budgeted \$574,000 was expended on curb, gutter, and sidewalk projects. There were a number of smaller projects that were completed under the budgeted amounts or were not started during the fiscal year. The sum these items constitutes the vast majority of the increase in fund balance.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

The redevelopment agency, the remaining major governmental fund, had a decrease in fund balance during the current year of \$(72,052) to bring the year end fund balance to \$6,109,753. The decrease is mainly due to a slight decrease in the amount of property tax increment revenue the City received and some of the operating costs were larger than anticipated.

Proprietary Funds. The City of South Salt Lake's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water Utility Fund at the end of the year was \$25,641, and for the Sewer Utility Fund was \$5,316,202. The unrestricted net position of the Ambulance Services Fund at the end of the year was \$371,685. The total change in net position for the Water Utility, Sewer Utility, and Ambulance Services Funds was \$(103,668), \$(236,056), and \$(34,129), respectively. Most of the decrease is due to revenue shortfalls in the water and sewer funds. Water fund revenue was slightly less than expected by approximately \$56,000, while expenditures were slightly higher than anticipated. Sewer fund revenue was about \$200,000 less than expected.

Operating losses in the Ambulance Services Fund were approximately \$113,000 in the fiscal year 2018, compared to the prior year's loss of approximately \$104,000. Operating revenues still lag behind operating expenditures. By utilizing available cash on hand, the City was able to replace three fully-equipped ambulance vehicles. A transfer of \$51,000 from the Capital Improvements Fund, which was expected and budgeted for fiscal year 2018, was recognized. This amount is similar to the amount transferred in fiscal year 2017.

General Fund Budgetary Highlights

Original budget compared to final budget. During the fiscal year, there was an increase in original estimated revenues of approximately \$651,000 and original budgeted appropriations of approximately \$651,000. This increase was mainly due to an expectation that additional grant funds would be awarded by the federal government and state agencies that were budgeted as revenue and corresponding expenditures during the fiscal year.

Final budget compared to actual results. Actual recognized revenue was approximately \$2,661,000 less than budgeted. The majority of that shortfall falls with the intergovernmental portion of general fund revenue. Most of the intergovernmental revenue is in the form of grants and state revenue sharing. Generally, intergovernmental revenue is recognized when there is a corresponding qualifying expenditure. Almost \$1,400,000 in road construction and maintenance projects were delayed into future periods, resulting in less revenue being recognized. In addition, afterschool grant expenditures were less than budgeted, resulting in an over \$900,000 difference between budgeted and actual revenue.

Fines and forfeiture revenue was approximately \$96,000 less than budgeted due to an understaffing condition in the police department for much of the fiscal year. Traffic units were temporarily disbanded and officers were reassigned to more critical duties. This resulted in a decrease of traffic citations and resulting fines and forfeitures revenue.

During the year, the general fund expenditures were approximately \$3,632,000 less than budgeted. Specifically, the police department was approximately \$236,000 under budget, fire was approximately \$311,000 under, streets and highways was approximately \$1,485,000 under budget, and SSL Promise was approximately \$919,000 under budget.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

In addition, every department budgeted in the general fund ended the fiscal year under budget. Department directors are very conservative in expending public funds. Generally, expenditures are incurred only if deemed necessary. The net result of less than expected revenue and under budget general fund expenditures was the fact that only approximately \$22,000 was added to the fund balance in the general fund. The modest increase in fund balance demonstrates the fact that revenue and expenditures were essentially equal.

Capital Assets and Debt Administration

Capital Assets. The City of South Salt Lake's investment in capital assets for its governmental and business-type activities as of June 30, 2018, amounted to \$57,671,140 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure, and construction in progress. The net increase in capital assets for the current fiscal year was approximately 0.6%.

City of South Salt Lake's Capital Assets (Net of Depreciation)

	Governmental Activities		Business-type Activities		Total	
	2018	2017	2018	2017	2018	2017
Land	\$ 5,857,230	\$ 5,840,409	\$ 762,825	\$ 762,825	\$ 6,620,055	\$ 6,603,234

Major capital asset events during the current fiscal year included the following:

- On-going replacement of police vehicles and acquisition of new law enforcement equipment in the approximate amount of \$526,000.
- Acquisition of public works equipment in the amount of \$149,000.
- Building improvements in the amount of \$768,000.
- Approximately \$247,000 for the purchase of computer hardware and software upgrades and replacement.
- Road and intersection improvements in the amount of \$150,000.
- Street lighting, concrete, and other infrastructure projects in the amount of \$551,000.

Additional information on the City of South Salt Lake's capital assets can be found in Note 4.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Long-term Debt. At the end of the current fiscal year, the City of South Salt Lake had total debt outstanding of \$14,240,752. The debt represents bonds secured solely by specified revenue sources and capital leases. The City of South Salt Lake's outstanding debt decreased by \$1,204,283 during the current fiscal year. The decrease is mainly the result of paying down existing debt.

City of South Salt Lake's Outstanding Debt

Additional information on the City of South Salt Lake's long-term debt can be found in Note 6.

Economic Factors and Next Year's Budgets and Rates

The City of South Salt Lake continues to rely on sales tax as the main source of revenue in the general fund. Sales taxes decreased approximately 6.7% (\$905,000) in fiscal year 2018 when compared to the prior year. The increase is due to improved economic conditions both nationally and locally. In addition, economic development projects, which had been the planning process for the past few years, began to materialize. A new grocery store, retail establishments, and housing developments opened during the fiscal year. National and local trends indicate economic activity, which includes taxable sales, will continue to increase in fiscal year 2019. Additional economic development projects that are envisioned to materialize in the next few years will contribute to the City's tax base.

Property tax revenue is expected to increase modestly due to the added valuation of recent construction projects that have been, or will be, completed within the next year. Other tax revenue is also expected to increase due to recently completed construction projects. Among this revenue is the expected increase in energy sales and use taxes.

Subsequent to June 30, 2018, the City increased its sewer rates in fiscal year 2019 by approximately 40%. This increase was needed due to annual debt payments required by participating in the Central Valley Water Reclamation Facility bond financing and the need to set aside funds for future projects. The City is obligated to pay approximately \$255,000 per year for its commitment to the debt service of CVWRF. In addition, due to more stringent wastewater discharge rules, CVWRF will embark on a \$170 million plant expansion which is expected to be completed by 2025. The City's share of the project will cost approximately \$11.3 million. The City is currently working with the Utah State Division of Water Quality to access funding assistance. It is expected that sewer rates will be required to be increased in the future to fund the new project.

The City of South Salt Lake uses a conservative approach to budgeting. Generally, the City attempts to be conservative when estimating revenue. This approach results in some flexibility when actual revenues do not meet expectations. The City's fiscal year 2019 general fund budget is estimated to increase \$6,322,544 when compared to final fiscal year 2018 actual expenditures. The difference is comprised primarily of an additional \$2,014,000 in Class C revenue road projects. The Class C projects increase has a dedicated funding source. Also, employee raises were authorized which will add approximately \$500,000 in general fund expenditures in fiscal year 2019.

CITY OF SOUTH SALT LAKE

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Another factor that will increase the general fund is the transfer of an estimated \$1,300,000 in revenue and expenditures currently reported in the ambulance services fund to the general fund. The City council determined that in FY 2019 the ambulance services enterprise fund would be eliminated. Ambulance services financial information will be reported in the general fund. This was decided due to the interoperability between the fire department and the ambulance transport functions. It was becoming increasingly difficult to separate those two activities from an operations, as well as financial perspective.

The City continues to be conservative in its expenditure of funds for capital acquisitions. Equipment is generally purchased on a “pay-as-we-go” basis, except for some pieces of large equipment that have extended useful lives. In fiscal year 2019, some budgeted equipment acquisitions and infrastructure projects include:

- \$800,000 to complete street lighting projects
- \$700,000 for curb, gutter, and sidewalk projects
- \$1,216,000 for open space and parks development
- \$510,000 for routine police vehicle and equipment replacement
- \$745,000 for improvements and repairs to various facilities
- \$1,385,000 for roads maintenance and construction projects
- \$480,000 for police vehicles and \$210,000 for an ambulance related to the homeless center services

In March 2017, a decision was made by state and county officials to place a 300-bed homeless resource center in the City. The City anticipates the center, which will open in July 2019, to create additional demand on certain city services. Law enforcement, emergency medical, code and animal enforcement services will undoubtedly experience an increased impact due to the resource center.

As a result, for fiscal year 2019, the City budgeted for the acquisition of an additional 12 police vehicles and one additional ambulance. These acquisitions are required, in addition to routine vehicle rotation, to properly equip the public safety personnel that will be hired to provide public safety services to, and around, the homeless resource center. Partial funding was made available through state legislation which the City has requested to access.

The City Council and administration will continue to evaluate all budget requests and allocate resources appropriately based on need and economic conditions.

Requests for Information

This financial report is designed to provide a general overview of the City of South Salt Lake’s finances for all those with an interest in the government’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Finance Director, 220 E Morris Avenue, Suite 200, South Salt Lake, UT 84115.

**RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION**

JUNE 30, 2018

Total fund balances - governmental funds	\$ 24,005,467
------------------------------------------	---------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the funds.	45,112,159
Net pension asset, net pension liability, and related deferred outflows and inflows are not available resources or payable in the current period and, therefore, are not reported in the funds.	(3,857,294)
Other assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.	5,026,182
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.	(14,030,242)
Internal service funds are used by management to charge the costs of insurance to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.	<u>545,998</u>
Net position of governmental activities	<u>\$ 56,802,270</u>

CITY OF SOUTH SALT LAKE

**RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

FOR THE YEAR ENDED JUNE 30, 2018

Net change in fund balances - total governmental funds \$ 535,307

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. 146,119

The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to decrease net position. (14,546)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. 215,531

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items. 973,783

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (18,585)

Internal service funds are used by management to charge the costs of insurance to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities. 54,234

Change in net position of governmental activities \$ 1,891,843

NOTES TO FINANCIAL STATEMENTS

This page intentionally left blank.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on the primary government and its component units. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

B. Reporting Entity

The City of South Salt Lake is a municipal corporation governed by an elected mayor and a seven-member council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. The City of South Salt Lake has no discretely presented component units and is itself not a component unit of any other entity. Each blended component unit has a June 30 year end.

Blended Component Units

The Redevelopment Agency was created by the City during fiscal year 1982. The Agency uses tax increment financing to support redevelopment projects within the City. The Agency is governed by a board comprised of the City's Mayor and City Council. Management of the City is responsible for day-to-day operations. The financial statements of the Redevelopment Agency are included in the reporting entity using the blended method and are reported as a major governmental fund.

The Municipal Building Authority was created by the City during fiscal year 1996. The Authority used the proceeds of tax exempt bonds to acquire capital assets for the City. The bonds were secured by a lease agreement with the City and were retired through lease payments from the City. The Authority is governed by the City Council. Because the Authority's governing body is substantially the same as the City's, the financial data is included in the reporting entity using the blended method.

Complete financial statements for each of the individual component units may be obtained at the City's administrative offices.

City of South Salt Lake
220 East Morris Avenue
Salt Lake City, UT 84115

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Reporting Entity (continued)

Joint Ventures

During 1978, the City entered into a joint venture with six other entities with an inter-local agreement to create the Central Valley Water Reclamation Facility (Central Valley), which provides waste water treatment for all seven member entities.

Effective January 1, 2017, the member entities moved to a single ownership percentage. Each member's beneficial ownership interest is recomputed on an annual basis at the end of the calendar year, as outlined in the interlocal agreement. The seven members and their related ownership interest, as of December 31, 2017, are as follows:

	<u>Beginning</u>	<u>Ending</u>
Cottonwood Improvement District	16.85 %	17.03 %
Mt. Olympus Improvement District	24.82	24.59
Granger-Hunter Improvement District	22.03	22.11
Kearns Improvement District	10.53	10.54
Murray City	8.37	8.45
City of South Salt Lake	5.21	5.27
Taylorsville-Bennion Improvement District	<u>12.19</u>	<u>12.01</u>
	<u>100.00 %</u>	<u>100.00 %</u>

The joint venture is administered by a joint administration board. Each member appoints one member of the board, and voting power is not related to ownership. Therefore, each member is equal to another for voting privileges. The joint venture is responsible for adopting a budget and financing its operations, subject to the approval by each of the seven members.

The City accounts for its investment in Central Valley using the equity method of accounting. Summarized financial information of Central Valley as of December 31, 2017 and for the year then ended is as follows (in thousands):

Total assets	\$ 124,262
Total net position	84,646
Revenue	15,470
Change in net position	1,145
The City's interest in:	
Equity	4,370
Net loss	(285)

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Reporting Entity (continued)

During the current year, the City contributed \$79,145 for capital enhancements. The net amount of equity interest in Central Valley Water Reclamation Facility at June 30, 2018 is \$4,369,820 and is recorded in the Sewer Utility Fund. Costs associated with the joint venture for the year ended June 30, 2018 were \$1,595,134, which includes \$284,504 amortization of the City's investment in Central Valley.

The Central Valley operating and maintenance costs are paid by the seven member entities based on their usage of the treatment plant. All costs are passed through to the member entities. The City's portion of Central Valley's operating costs and the related percentage of plant usage for the last three years are as follows:

<u>Year</u>	<u>Operating Costs</u>	<u>Percentage of Plant</u>
2018	\$1,310,630	6.21%
2017	\$973,162	6.42%
2016	\$771,842	5.63%

A copy of the Central Valley Water Reclamation Facility audited financial statements may be obtained by writing to the Central Valley Water Reclamation Facility at 800 West Central Valley Road, Salt Lake City, UT 84119-3379.

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and sewer functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including blended component units. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Presentation – Fund Financial Statements (continued)

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* accounts for the resources required for major capital improvements of the City.

The *redevelopment agency* accounts for revenues derived from specific taxes which are designated to finance particular functions of the City.

The government reports the following major enterprise funds:

The *water utility fund* accounts for the activities of the water distribution system of the City.

The *sewer utility fund* accounts for the activities of the joint venture (described in Note 1.B.), the sewage pumping stations, and the collection system.

The *ambulance services fund* accounts for the activities of the ambulance and paramedic services of the City.

Additionally, the government reports the following fund types:

Internal service funds account for insurance provided to other departments or agencies of the government on a cost reimbursement basis.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, energy sales and use taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

F. Budgetary Procedures and Budgetary Basis of Accounting

Budgetary procedures for the City have been established by the Uniform Fiscal Procedures Act adopted by the State of Utah, which requires the legal adoption of a budget for all funds. Furthermore, in accordance with state law, all appropriations, except capital projects fund appropriations, lapse at the end of the budget year; accordingly, no encumbrances are recorded. The basis of accounting applied to each fund budget is the same basis as the related fund's financial statements. The following are the legal procedures followed by the City:

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Budgetary Procedures and Budgetary Basis of Accounting (continued)

- 1) On or before the first regularly scheduled meeting of the City Council in May, the City's Mayor, authorized under state statute to be appointed budget officer, submits a proposed operating budget for governmental fund types for which budgetary control is required by Utah State statute (i.e., General Fund, Capital Projects Funds, Debt Service Funds, and Special Revenue Funds), and an operating and capital budget for all proprietary fund types for the subsequent fiscal year. The budget documents include the proposed budget amounts requested by the department heads, along with the proposed budget amounts requested by the Mayor.
- 2) A public hearing is held to receive input on all aspects of the proposed budget. The hearing is preceded by a notice in the local newspaper. The notice is given at least seven days before the hearing and includes the time, date, and place of the hearing. All budget documents are required to be available for public inspection ten days prior to the public hearing.
- 3) On or before June 30, a final balanced budget must be adopted for the subsequent fiscal year beginning July 1.
- 4) The legal budgetary control is maintained at the departmental level. The Mayor, however, acting as budget officer, has the budget authority to transfer budget appropriations between individual line items within any department of any budgetary fund.
- 5) The City Council, by resolution, has the authority to transfer budget appropriations between the individual departments of any budgetary fund.
- 6) A public hearing, as required in (2) above, must be held to increase the total appropriations of any one governmental fund type; however, after the original public hearing, operating and capital budgets of proprietary fund types may be increased by resolution without an additional hearing.
- 7) Monthly interim financial reports are prepared by the Finance Director and presented to the City Council. These reports contain a budgetary statement showing a comparison of budget to actual for all budgetary funds of the City. Special budgetary reports, using an operating and capital expenditure concept, are prepared for proprietary funds.

The budgets presented for the General Fund, Capital Projects Funds and Redevelopment Agency are designated as revised budgets. Throughout the year, the City Council approves all expenditures and makes amendments to the City's budget. Near year end, the City Council makes final amendments to the budget.

The budget passed for the Capital Projects Funds is an annual budget, based on estimates of annual expenditures. This budget is not based on project length for long-term capital projects.

No budget is presented in these financial statements for the Proprietary Funds. Utah state law allows the City Council to amend the Proprietary Funds budgets without public hearing or public notice. Additional budgetary appropriations were necessary during the year ended June 30, 2018 for the Ambulance Services and Housing funds.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

For purposes of the statement of cash flows, the Water Utility, Sewer Utility, Solid Waste Collection, Ambulance Services, and Housing Funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

H. Restricted Cash and Cash Equivalents

Certain resources set aside for bond repayment are classified as restricted cash and cash equivalents on the balance sheet because their use is limited by applicable bond covenants. Other cash and cash equivalents accounts are restricted by state law or collateral requirements.

I. Ambulance Services Fund Accounts Receivable and Revenue

Accounts receivable in the Ambulance Services Fund is shown net of an allowance for uncollectibles of \$285,851 as of June 30, 2018. Management determines the allowance for uncollectibles by using historical experience applied to the receivable balance. Ambulance fees in the Ambulance Services Fund are reported net of write-offs and contractual adjustments of \$2,238,145.

J. Capital Assets

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Capital assets in the government-wide financial statements and in the fund financial statements for proprietary funds are reported in the statement of net position. Capital assets include property, plant, equipment and infrastructure assets, e.g., roads, sidewalks, and similar items. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Prior to July 1, 2002, governmental funds' infrastructure assets were not capitalized. These assets (back to June 30, 1994) have been valued at historical cost. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current fiscal year.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Capital Assets (continued)

Property, plant and equipment of the primary government, is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Outfall lines	60
Sewage collection	60
Water storage towers	50
Water distribution mains	50
Pump houses	25 to 40
Pumping stations	33
Wells and reservoirs	10 to 25
Meters and hydrants	10
Buildings	15
Office equipment	5 to 10
Machinery and equipment	5 to 20
Vehicles	7
Infrastructure	10 to 50

K. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted-net position to have been depleted before unrestricted-net position.

L. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

M. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Balance Policies (continued)

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision making authority. The City Council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The City Council has by resolution authorized the finance director to assign fund balance. The City Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

N. Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

O. Compensated Absences

The government's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in governmental funds only if the liability has matured as a result of employee resignation and retirements. Sick pay amounts are charged as wages when used.

Employees can carry-over up to twenty-one days of unused vacation each year. The vacation year ends on March 31. Employees may carry-over up to twelve days of unused sick leave each year. When employees terminate, they are paid for accumulated vacation and one-half their normal rate for accumulated sick leave, if certain criteria are met.

P. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the City to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Taxes and Other Significant Revenue

Property and Other Taxes

Property tax is assessed, levied, and collected by the county governments in the state of Utah. The City Council is authorized by state statute (10-6-133) to levy up to a tax rate of .007 of the taxable value against all real and personal property located within its boundaries. Property taxes become a lien on January 1 and are levied on the first Monday of August. Taxes are due and payable on November 1 and delinquent after November 30 of each year. Taxes on an individual piece of property may be delinquent up to five years before the property is sold for delinquent taxes.

Under state statute, the County Treasurer, acting as a tax collector, must settle and disburse all current tax collections to all taxing units by the end of March following the taxing year. Delinquent taxes are collected throughout the year and disbursed to the taxing units on a routine basis.

Property tax revenues are recognized when they become available. Available includes those property taxes collected from the taxpayers by the County Treasurer by June 30 of each year. Amounts that are measurable but not available are recorded as deferred revenue. An accrual was made for property taxes receivable and an offsetting deferred inflow of resources in the amount of \$5,026,182 at June 30, 2018. Property taxes become an enforceable lien on January 1 but are not due until November 30.

Transient room tax and the municipal telecommunications tax are collected by the State Tax Commission and remitted to the City monthly. Energy sales and use taxes are collected and remitted to the City by the electric and natural gas companies monthly, and the cable television company semiannually.

Sales Taxes

In accordance with the Local Sales and Use Tax Act (title 59, Chapter 12, Part 2, Utah Code Annotated 1953, as amended), the City presently levies a local sales and use tax of 1.00% on all taxable sales of goods and services. The local sales and use tax is collected by the Utah State Tax Commission and distributed monthly to the City of South Salt Lake and all other counties and municipalities in Utah.

The distributions are based on a formula which provides that; 1) 50% of each dollar of sales tax collections will be distributed on the basis of the local government's pro-rata share of the state population and, 2) 50% of each dollar of sales tax collections will be distributed on the basis on the point of sale.

The City also imposes the city or town options sales and use tax at a rate of 0.2 percent, as allowed for under Utah Code §59-12-2103.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

R. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water utility, sewer utility, and ambulance services funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

S. Pensions

For purposes of measuring the net pension asset, net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

T. Deferred Outflows/Inflows of Resources

In addition to assets, financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "net pension asset, net pension liability, and related deferred outflows and inflows are not available resources or payable in the current period and, therefore, are not reported in the funds." The details of this \$3,857,294 difference are as follows:

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position (continued)

Net pension asset	\$ 401,428
Deferred outflows of resources relating to pensions	4,507,745
Net pension liability	(4,570,692)
Deferred inflows of resources relating to pensions	<u>(4,195,775)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u>\$ (3,857,294)</u>

Another element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$14,030,242 difference are as follows:

Bonds payable	\$ 12,850,000
Capital leases payable	424,752
Accrued interest payable	193,847
Compensated absences	<u>561,643</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u>\$ 14,030,242</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances - total governmental funds* and *change in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$146,119 difference are as follows:

Capital outlay	\$ 2,714,500
Depreciation expense	<u>(2,568,381)</u>
Net adjustment to decrease <i>net change in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u>\$ 146,119</u>

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states that “some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$18,585 difference are as follows:

Compensated absences	\$ 1,520
Accrued net pension	(35,134)
Accrued interest	<u>15,029</u>
Net adjustment to increase <i>net change in fund balances</i> - <i>total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u>\$ (18,585)</u>

3. DEPOSITS AND INVESTMENTS

The State of Utah Money Management Council has the responsibility to advise the State Treasurer about investment policies, promote measures and rules that will assist in strengthening the banking and credit structure of the state and review the rules adopted under the authority of the State of Utah Money Management Act that relate to the deposit and investment of public funds.

The City follows the requirements of the Utah Money Management Act (*Utah Code*, Section 51, Chapter 7) in handling its depository and investment transactions. The Act requires the depositing of City funds in a qualified depository. The Act defines a qualified depository as any financial institution whose deposits are insured by an agency of the Federal Government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council.

a. Deposits

	Bank Balances	Book Balances
Cash on hand	\$ -	\$ 2,950
Cash on deposit	<u>1,619,652</u>	<u>707,229</u>
 TOTAL	 <u>\$ 1,619,652</u>	 <u>\$ 710,179</u>

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of a bank failure, the City’s deposits may not be returned to it. The City does not have a formal deposit policy for custodial credit risk. As of June 30, 2018, \$1,369,652 of the City’s bank balances of \$1,619,652 was uninsured and uncollateralized.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. DEPOSITS AND INVESTMENTS (CONTINUED)

b. Investments

The Money Management Act defines the types of securities authorized as appropriate investments for the City and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

Statutes authorize the City to invest in negotiable or nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as “first tier” by two nationally recognized statistical rating organizations, one of which must be Moody’s Investors Services or Standard & Poor’s; bankers’ acceptances; obligations of the United States Treasury, including bills, notes, and bonds; bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed rate corporate obligations and variable rate securities rated “A” or higher, or the equivalent of “A” or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in the Act; and the State of Utah Public Treasurer’s Investment Fund.

The Utah State Treasurer’s Office operates the Public Treasurer’s Investment Fund (PTIF). The PTIF is available for investment of funds administered by any Utah public treasurer.

The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act, Section 51-7, *Utah Code Annotated, 1953*, as amended. The Act established the Money Management Council, which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains, and losses-net of administration fees, of the PTIF are allocated based upon the participant’s average daily balance. The fair value of the PTIF investment pool is approximately equal to the value of the pool shares.

As of June 30, 2018, the City had the following investments and maturities:

Investment Type	Investment Maturities (in Years)				
	Fair Value	Less Than 1	1-5	6-10	More Than 10
State of Utah Public Treasurer's Investment Fund	\$ 21,840,440	\$ 21,840,440	\$ -	\$ -	\$ -

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. DEPOSITS AND INVESTMENTS (CONTINUED)

b. Investments (continued)

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the State's Money Management Act. Section 51-7-11 of the Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. Except for funds of Institutions of Higher Education acquired by gifts, grants, or the corpus of funds functioning as endowments, the Act further limits the remaining term to maturity on all investments in commercial paper, bankers' acceptances, fixed rate negotiable deposits, and fixed rate corporate obligations to 270-365 days or less. In addition, variable rate negotiable deposits and variable rate securities may not have a remaining term to final maturity exceeding two years.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City's policy for reducing its exposure to credit risk is to comply with the State's Money Management Act as previously discussed. As of June 30, 2018, the City's investments in the State of Utah Public Treasurer's Investment Fund were unrated.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City's policy for reducing the risk of loss is to comply with the Rules of the Money Management Council. Rule 17 of the Money Management Council limits investments in a single issuer of commercial paper and corporate obligations to 5%-10% depending upon total dollar amount held in the portfolio.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk.

5. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of June 30, 2018, is as follows:

Receivable Fund	Payable Fund	Amount
Capital projects	Redevelopment agency	<u>\$ 1,812,609</u>

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

5. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (CONTINUED)

A portion of the interfund payable balance in the Redevelopment Agency reflects the amount due to the capital projects fund for loans made in 1992, 1993, and 1994. The original 1992 loan, which comprises the majority of the total loan amount, was made to finance major housing rehabilitation projects in the Park Creek and Southbrook areas of the City. Debt service on the loan is made with tax increment proceeds received annually by the Redevelopment Agency. An additional loan of \$1,000,000 was made between the Redevelopment Agency and the capital projects fund during the year ended June 30, 2014. This loan was made to help finance the purchase of property in the Market Station development area. Debt service on the loan will be made using the proceeds from the sale of the property purchased.

<u>Transfer Out:</u>	<u>Transfer In:</u>	<u>Amount</u>
Capital projects fund	Leased equipment debt service fund	\$ 325,385
General fund	Redevelopment agency	1,600,000
Capital projects fund	Ambulance services fund	51,000

Transfers are used to (1) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due, (2) move restricted amounts from borrowings to the debt service fund to establish mandatory reserve accounts, and (3) move unrestricted general fund revenues to finance various programs that the government must account for in other funds. During the year ended June 30, 2018, the government made a transfer of \$51,000 from the capital projects fund to the ambulance services fund to provide cash to offset the operating loss in the ambulance services fund.

6. LONG-TERM DEBT

Revenue Bonds

The government issues bonds where the government pledges income derived from the acquired or constructed assets to pay debt service. Revenue bonds outstanding at year end are as follows:

<u>Purpose</u>	<u>Issue Date</u>	<u>Original Borrowing</u>	<u>Interest Rates</u>	<u>Final Maturity</u>	<u>Amount</u>
Governmental Activities:					
Market Station Urban Renewal	2010	\$ 15,000,000	4.42%	2031	<u>\$ 12,850,000</u>

The City has pledged all future municipal energy sales and use tax and municipal telecommunications license tax revenues, and tax increment revenue from the Market Station project area, to repay \$15 million in Redevelopment Agency excise tax and tax increment bonds issued in December 2010. The bonds are payable solely from municipal energy sales and use and municipal telecommunications license tax revenues, and tax increment revenue from the Market Station project area. Pledged taxes were projected to produce 213% of the debt service requirements over the life of the bonds. Total principal and interest remaining on the bonds is \$17,001,927, payable through November 2030. For the current year, principal and interest paid and total municipal energy sales and use tax and municipal telecommunications license tax revenues were \$1,247,666 and \$3,092,305, respectively.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

6. LONG-TERM DEBT (CONTINUED)

Purpose	Issue Date	Original Borrowing	Interest Rates	Final Maturity	Amount
Business-type Activities:					
Water system improvements	2001	\$ 3,000,000	2.40%	2022	\$ 720,000
Wastewater treatment	2002	1,230,000	0.00%	2022	\$ 246,000
TOTAL					\$ 966,000

The City has pledged future revenues of the City's water system to repay \$3 million in water revenue bonds issued in April 2001. The bonds are payable solely from revenues of the City's water system and are payable through January 2022. The total principal and interest remaining to be paid on the bonds is \$763,680. Principal and interest paid for the current year and total water utility fund operating income (excluding depreciation) were \$190,336 and \$350,473, respectively.

The City has pledged future sewer revenues, net of specified operation and maintenance expenses, to repay \$1.23 million in sewer revenue bonds issued in August 2002. The bonds are payable solely from the net revenues of the City's sewer utility fund and are payable through February 2022. The total principal and interest remaining to be paid on the sewer revenue bonds is \$246,000. Principal and interest paid for the current year and total sewer utility fund net revenues were \$61,500 and \$91,696, respectively.

Revenue bond debt service requirements to maturity are as follows:

	Governmental Activities		Business-type Activities	
	Principal	Interest	Principal	Interest
2019	\$ 705,000	\$ 552,390	\$ 235,500	\$ 17,280
2020	755,000	520,123	239,500	13,104
2021	805,000	485,648	243,500	8,832
2022	770,000	450,840	247,500	4,464

Compensated absences in the governmental activities are generally liquidated by the General Fund.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

7. CAPITAL LEASES

During fiscal year 2014, the City entered into a lease agreement as lessee for financing the acquisition of fire equipment valued at \$1,000,152. During fiscal year 2015, the City entered into a lease agreement as lessee for financing the acquisition of public works equipment valued at \$418,660. During fiscal year 2017, the City entered into a lease agreement as lessee for financing the acquisition of public works equipment valued at \$80,199. This year, \$82,398 was included in depreciation expense. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of future minimum lease payments as of the inception dates.

The assets acquired through the capital leases are as follows:

Assets:	
Machinery and equipment	\$ 1,499,011
Less: accumulated depreciation	<u>(299,639)</u>
TOTAL	<u>\$ 1,199,372</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2018 were as follows:

<u>Year Ending June 30,</u>	
2019	\$ 325,385
2020	<u>111,073</u>
Total minimum lease payments	436,458
Less: amount representing interest	<u>(11,706)</u>
Present value of minimum lease payments	<u>\$ 424,752</u>

8. CONDUIT DEBT OBLIGATIONS

From time to time, the City has issued Industrial Development Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities and equipment. The bonds are secured by the property financed and are payable solely from payments received on the underlying loans. Neither the City, nor the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2018, there was one series of Industrial Development Revenue Bonds outstanding, with an outstanding principal balance of \$115,706.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

9. RETIREMENT SYSTEMS AND PENSION PLANS

General Information about the Pension Plan

Plan description: Eligible plan participants are provided with pensions through the Utah Retirement Systems. Utah Retirement Systems are comprised of the following pension trust funds:

Defined Benefit Plans

- Public Employees Noncontributory Retirement System (Noncontributory System); Firefighters Retirement System (Firefighters System); are multiple employer, cost sharing, retirement systems.
- Public Safety Retirement System (Public Safety System) is a mixed agent and cost-sharing, multiple-employer public employee retirement system.
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System); and the Tier 2 Public Safety and Firefighter Contributory Retirement System (Tier 2 Public Safety and Firefighters System) are multiple-employer, cost sharing, public employee retirement systems.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms. URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 East 200 South, Salt Lake City, Utah 84102 or visiting the website: www.urs.org.

Benefits provided: URS provides retirement, disability, and death benefits. Retirement benefits are as follows:

System	Final Average Salary	Years of service required and/or age eligible for benefit	Benefit percentage per year of service	COLA**
Noncontributory System	Highest 3 years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	2.0% per year all years	Up to 4%
Public Safety System	Highest 3 years	20 years any age 10 years age 60 4 years age 65	2.5% per year up to 20 years; 2.0% per year over 20 years	Up to 2.5% or 4% depending upon employer

* with actuarial reductions

** All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

Contribution Rate Summary: As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Utah State Retirement Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of June 30, 2018 are as follows:

		Employee	Employer	Employer 401(k)
Contributory System				
111 - Local Governmental Division Tier 2		N/A	15.11%	1.58%
Noncontributory System				
15 - Local Governmental Division Tier 1		N/A	18.47%	N/A
Public Safety Retirement System				
Contributory System				
122 - Tier 2 DB Hybrid Public Safety		N/A	23.73%	1.26%
Noncontributory System				
75 - Other Division A with 4% COLA		N/A	35.71%	N/A
Firefighters System				
31 - Other Division A		0.1505	3.93%	N/A
132 - Tier 2 DB Hybrid Firefighters		N/A	10.82%	1.26%
Tier 2 DC Only				
211 - Local Government		N/A	6.69%	10.00%
222 - Public Safety		N/A	12.99%	12.00%
232 - Firefighters		N/A	0.08%	12.00%

Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

CITY OF SOUTH SALT LAKE

9. RETIREMENT SYSTEMS AND PENSION PLANS (CONTINUED)

For the fiscal year ended June 30, 2018, the employer and employee contributions to the Systems were as follows:

System	Employer Contributions	Employee Contributions
Noncontributory System	\$ 647,580	N/A
Public Safety System	845,885	-
Firefighters System	88,962	-
Tier 2 Public Employees System	258,310	-
Tier 2 Public Safety and Firefighters System	196,256	-
Tier 2 DC Only System	38,185	N/A
Tier 2 DC Public Safety and Firefighter System	6,301	N/A
Total contributions	<u><u>\$ 2,081,479</u></u>	<u><u>\$ -</u></u>

Contributions reported are the URS Board approved required contributions by System. Contributions in the Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

Combined Pension Assets, Liabilities, Expense, and Deferred Outflows and Inflows of Resources Relating to Pensions

At June 30, 2018, the City reported a net pension asset of \$508,588 and a net pension liability of \$4,792,331.

	Measurement Date: December 31, 2017				
	Net Pension Asset	Net Pension Liability	Proportionate Share	Proportionate Share Dec. 31, 2016	Change
	\$ -	\$ 2,030,738	0.4635013%	0.4772586%	-0.0137573%
Noncontributory System	\$ -	\$ 2,030,738	0.4635013%	0.4772586%	-0.0137573%
Public Safety System	-	2,746,460	1.7508336%	1.8602397%	-0.1094061%
Firefighters System	497,586	-	7.9670752%	9.6015631%	-1.6344879%
Tier 2 Public Employees System	-	15,133	0.1716426%	0.1833915%	-0.0117489%
Tier 2 Public Safety and Firefighters System	11,002	-	0.9508348%	0.9858136%	-0.0349788%
Total Net Pension Asset/Liability	<u><u>\$ 508,588</u></u>	<u><u>\$ 4,792,331</u></u>			

The net pension asset and liability were measured as of December 31, 2017, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2017, and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the year ended June 30, 2018, the City recognized pension expense of \$2,124,978, allocated as follows: Noncontributory System - \$691,443; Public Safety System - \$958,073; Firefighters System - \$229,224; Tier 2 Public Employees System - \$145,309; and Tier 2 Public Safety and Firefighters System - \$100,929.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

9. RETIREMENT SYSTEMS AND PENSION PLANS (CONTINUED)

At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 51,604	\$ 776,202
Changes in assumptions	2,464,374	248,021
Net difference between projected and actual earnings on pension plan investments	1,264,594	3,311,347
Changes in proportion and differences between contributions and proportionate share of contributions	120,940	285,920
Contributions subsequent to the measurement date	1,036,257	-
Total	\$ 4,937,769	\$ 4,621,490

\$1,036,257 was reported as deferred outflows of resources related to pensions results from contributions made by the City prior to its fiscal year end, but subsequent to the measurement date of December 31, 2017.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31,	Deferred Outflows (Inflows) of Resources
2017	\$ 121,305
2018	265,872
2019	(613,847)
2020	(666,469)
2021	104,958
Thereafter	68,203

Actuarial assumptions: The total pension liability in the December 31, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 Percent
Salary increases	3.25 – 9.75 percent, average, including inflation
Investment rate of return	6.95 percent, net of pension plan investment expense, including inflation

Mortality rates were developed from actual experience and mortality tables, based on gender, occupation and age, as appropriate, with adjustments for future improvement in mortality based on Scale AA, a model developed by the Society of Actuaries.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

9. RETIREMENT SYSTEMS AND PENSION PLANS (CONTINUED)

The actuarial assumptions used in the January 1, 2017, valuation were based on the results of an actuarial experience study for the five-year period ending December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Expected Return Arithmetic Basis		
	Target Asset Allocation	Real Return Arithmetic Basis	Long-Term Expected Portfolio Real Rate of Return
Equity securities	40%	6.15%	2.46%
Debt securities	20%	40.00%	0.08%
Real assets	15%	5.75%	0.86%
Private equity	9%	9.95%	0.89%
Absolute return	16%	2.85%	0.46%
Cash and cash equivalents	0%	0.00%	0.00%
Totals	100%		4.75%
			2.50%
			7.25%

The 6.95% assumed investment rate of return is comprised of an inflation rate of 2.50% and a real return of 4.45% that is net of investment expense.

Discount rate: The discount rate used to measure the total pension liability was 6.95 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate. The discount rate was reduced to 6.95 percent from 7.20 percent from the prior measurement period.

Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate: The following presents the proportionate share of the net pension liability calculated using the discount rate of 6.95 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.95 percent) or 1-percentage-point higher (7.95 percent) than the current rate:

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

Defined Contribution Savings Plans

The Defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b) and 408 of the Internal Revenue code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

The City of South Salt Lake participates in the following Defined Contribution Savings Plans with Utah Retirement Systems:

- 401(k) Plan
- 457(b) Plan
- Roth IRA Plan
- Traditional IRA Plan

Employee and employer contributions to the Utah Retirement Defined Contribution Savings Plans for fiscal years ended June 30, were as follows:

	2018	2017	2016
401(k) Plan			
Employer Contributions	\$ 426,628	\$ 384,292	\$ 340,337

Traditional IRA Plan			
Employer Contributions	N/A	N/A	N/A
Employee Contributions	8,165	8,600	8,160

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

10. RISK MANAGEMENT

The City of South Salt Lake, as a provider of municipal services, is exposed to a number of risks. Among these are; police enforcement liability, auto liability, road maintenance exposure, public official's errors and omissions, and property losses. The City has determined that the inherent risk of providing services necessitates implementing risk management policies and purchasing commercial liability insurance. This combination has resulted in fewer claims against the City and sufficient protection when claims occur.

There has not been any reduction in insurance coverage in the past year for any insurance category. The amounts of settlements for any of the past three years have not exceeded coverage amounts.

The City of South Salt Lake contracts with commercial insurance coverage for general liability, auto liability, law enforcement liability and public official's errors and omissions type risks. The City maintains an Insurance Reserve Fund to fund deductibles and small equipment losses. As a result, the City does not have any outstanding insurance liabilities from year to year. However, the City does have annual expenses, which change.

For the year ended June 30, 2018, the Insurance Reserve Fund paid \$578,670 in expenses. Current expenses include insurance deductible for insurance coverage and claims on uninsured property such as police and other City vehicles and small trucks, legal fees and insurance premiums.

11. REDEVELOPMENT AGENCY

In accordance with Utah Code Section 17C-1-605(2), the City's Redevelopment Agency is required to disclose the following information for fiscal year 2018:

A. The tax increment collected by the Agency for each project area is as follows:

Project Area	2018
Post Office Place	\$ 111,171
Metro - Center	21,563
Westech	<u>120,611</u>
TOTAL	\$ 253,345

B. There were no amounts of tax increment paid to any taxing agency during the year.

C. The outstanding principal amount of bonds issued or other loans incurred to finance the costs associated with project areas is as follows:

Project Area	2018
Excise tax and tax increment revenue bonds	\$ 12,850,000
Interfund notes payable	1,812,609
	<u>\$ 14,662,609</u>

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

11. REDEVELOPMENT AGENCY (CONTINUED)

D. The actual amount expended for:

Project Area	2018
Administrative costs of the Agency	\$ 489,520
Principal on bonds payable	665,000
Interest and fiscal charges on bonds	582,666
Market Station improvement costs	<u>189,858</u>
	<u><u>\$ 1,927,044</u></u>

12. CONTINGENT LIABILITIES

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures, which may be disallowed by the grantor, cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of most of these lawsuits is not presently determinable, it is the opinion of the City's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the City.

13. COMMITMENTS

Central Valley Water Reclamation Facility - the City has committed with six other entities to fund future capital projects of the Central Valley Water Reclamation Facility. The City is also obligated to make debt service payments to Central Valley in relation to the Series 2017A sewer revenue bonds issued by Central Valley to fund treatment plant upgrades. The City is billed monthly in proportion to its ownership as a percentage of the total ownership represented by the four member entities participating in the 2017A bonds. For the year ended June 30, 2018, the City made payments of \$285,474, and the City's share of the unpaid principal balance of the bonds was approximately \$3,185,000 at June 30, 2018. The bonds mature in 2033.

During the year ended June 30, 2018, the City entered into an agreement with a contractor for the Penny Avenue/Blair Circle road construction project. As of June 30, 2018, the City had a remaining commitment of approximately \$700,000 under the agreement.

During the year ended June 20, 2018, the City entered into a contract for the acquisition of an ambulance vehicle. As of June 30, 2018, the City had a remaining commitment of approximately \$210,000 under the contract.

During the year ended June 30, 2018, the City entered into an agreement with a contractor for the installation of new street lighting. As of June 30, 2018, the City had a remaining commitment of approximately \$100,000 under the agreement.

CITY OF SOUTH SALT LAKE

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

13. COMMITMENTS (CONTINUED)

During the year ended June 30, 2018, the City entered into an agreement with a contractor for the Fitts Park floodplain analysis/park design project. As of June 30, 2018, the City had a remaining commitment of approximately \$75,000 under the agreement.

During the year ended June 30, 2018, the City entered into an agreement with a contractor for a street lighting master plan/design project. As of June 30, 2018, the City had a remaining commitment of \$40,000 under the agreement.

14. SUBSEQUENT EVENTS

Subsequent to June 30, 2018, the City authorized an increase in the base sewer rate of \$2, which is a 40% increase (effective July 1, 2018).

Also subsequent to June 30, 2018, the Utah State Division of Water Quality awarded hardship funding assistance to the City for wastewater treatment plant construction projects. The City will receive a \$2,000,000 grant and an interest-free loan of approximately \$9,250,000.

Also subsequent to June 30, 2018, the City Council authorized the elimination of the ambulance services and housing funds. The activities previously reported in these funds will be reported in the general fund going forward.

* Contributions in Tier 2 include an amortization rate to help fund the unfunded liabilities in the Tier 1 systems.

Tier 2 systems were created effective July 1, 2011.

** GASB 68 was implemented in fiscal year 2015; therefore, there is only information for four prior years available for this schedule.

*** Contributions as a percentage of covered-employee payroll may be different than the board certified rate due to rounding and other administrative issues.

CITY OF SOUTH SALT LAKE

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED JUNE 30, 2018

1. GENERAL FUND AND REDEVELOPMENT AGENCY BUDGETARY INFORMATION

The budgets for the general fund and redevelopment agency are adopted and presented on a basis consistent with U.S. generally accepted accounting principles.

2. PENSION SCHEDULES

Changes in Assumptions

As a result of an experience study conducted as of December 31, 2016, the Board adopted recommended changes to several economic and demographic assumptions that are used in the actuarial valuation. The assumption changes that had the largest impact on the Total Pension Liability (and actuarial accrued liability) include a decrease in the investment return assumption from 7.20% to 6.95%, a reduction in the price inflation assumption from 2.60% to 2.50% (which also resulted in a corresponding decrease in the cost-of-living adjustment assumption for the funds with a 4.00% annual COLA max), and the adoption of an updated retiree mortality table that is developed using URS's actual retiree mortality experience. There were changes to several other demographic assumptions, but those changes had a minimal impact on the Total Pension Liability (and actuarial accrued liability).

STATISTICAL SECTION

This part of the City of South Salt Lake's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	86
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	93
These schedules contain information to help the reader assess one of the government's revenue sources, sales taxes.	
Debt Capacity	97
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	103
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operating Information	106
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

* Sales tax pledged debt was retired at 6/30/16 making an allocation to the Sales Tax Debt Service Fund unnecessary beginning in FY 2017.

Prior to fiscal year 2007 the City of South Salt Lake received 75% of the 1% local option with the remaining 25% allocated to other cities and towns based on their percentage of statewide population. In 2007 state law changed the method of distribution resulting in the City of South Salt Lake receiving 50% of the 1% local option and being allocated an additional amount based on the City's share of the State's population.

City of South Salt Lake

This page is intentionally left blank.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor and City Council
City of South Salt Lake
South Salt Lake, Utah

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of South Salt Lake as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of South Salt Lake's basic financial statements, and have issued our report thereon dated December 11, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of South Salt Lake's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of South Salt Lake's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questions costs, that we consider to be a material weakness. See item 2018-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of South Salt Lake's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of South Salt Lake's Response to Findings

The City of South Salt Lake's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of South Salt Lake's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Mayor and City Council
City of South Salt Lake
South Salt Lake, Utah

Report on Compliance for Each Major Federal Program

We have audited the City of South Salt Lake's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of South Salt Lake's major federal programs for the year ended June 30, 2018. The City of South Salt Lake's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, contracts, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of South Salt Lake's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of South Salt Lake's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of South Salt Lake's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of South Salt Lake complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control over Compliance

Management of the City of South Salt Lake is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of South Salt Lake's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of South Salt Lake's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF SOUTH SALT LAKE

SUMMARY SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2018

A. SUMMARY OF AUDIT RESULTS

1. The auditor's report expresses an unmodified opinion on the financial statements of the City of South Salt Lake.
2. One material weakness disclosed during the audit of the financial statements is reported in the INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*.
3. No instances of noncompliance material to the financial statements of the City of South Salt Lake, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. No significant deficiencies in internal control over major federal award programs were reported in the INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE.
5. The auditor's report on compliance for the major federal award programs for the City of South Salt Lake expresses an unmodified opinion for all major federal programs.
6. Audit findings that are required to be reported in accordance with 2 CFR section 200.516(a) are reported in this Schedule.
7. The programs tested as major programs were:
 - Temporary Assistance for Needy Families, CFDA number 93.558
 - Child Care and Development Block Grant, CFDA number 93.575
8. The threshold used for distinguishing between Types A and B programs was \$750,000.
9. The City of South Salt Lake was determined not to be a low-risk auditee.

B. FINDINGS – FINANCIAL STATEMENTS AUDIT

MATERIAL WEAKNESS

2018-001 Financial Reporting of Capital Assets in Government-wide Financial Statements

During our audit, we noted that a piece of equipment purchased during the year was not identified and included in the capital asset acquisitions report used to record capital assets in the government-wide financial statements. Generally accepted accounting principles require the City to capitalize assets with a cost above the City's capitalization threshold (\$5,000) and with a useful life of two or more years. The City did not identify this asset purchase in its review of capital expenditures in the general and capital improvements funds. As a result, capital asset additions in the governmental activities of the government-wide financial statements were understated.

CITY OF SOUTH SALT LAKE

SUMMARY SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)

FOR THE YEAR ENDED JUNE 30, 2018

B. FINDINGS – FINANCIAL STATEMENTS AUDIT (CONTINUED)

2018-001 Financial Reporting of Capital Assets in Government-wide Financial Statements

We recommend that the City strengthen existing policies to thoroughly review governmental fund expenditures and identify items that meet the criteria for capitalization.

Management's Response:

Management will ensure that it improves its methods of identifying and recording capitalized assets on the government-wide financial statements. In particular, more effort will be expended when reviewing possible capital acquisitions in the general fund.

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

We noted no findings or questioned costs related to major programs during the course of our audit.

CITY OF SOUTH SALT LAKE

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2018

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the City of South Salt Lake under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Pass-through entity identifying numbers are presented where available.

NOTE C – CRIME VICTIM ASSISTANCE

In accordance with the grant agreement, the City of South Salt Lake has expended matching contributions totaling \$73,676 during the year ended June 30, 2018.

NOTE D – VIOLENCE AGAINST WOMEN FORMULA GRANT

In accordance with the grant agreement, the City of South Salt Lake has expended matching contributions totaling \$29,880 during the year ended June 30, 2018.

NOTE E – CHILD CARE AND DEVELOPMENT BLOCK GRANT

In accordance with the grant agreement, the City of South Salt Lake has expended matching contributions totaling \$512,500 during the year ended June 30, 2018.

**INDEPENDENT AUDITOR'S REPORT
ON COMPLIANCE AND INTERNAL CONTROL
OVER COMPLIANCE AS REQUIRED BY
THE STATE COMPLIANCE AUDIT GUIDE**

Honorable Mayor and City Council
City of South Salt Lake
South Salt Lake, Utah

Report on Compliance

We have audited the City of South Salt Lake's compliance with the applicable state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor, that could have a direct and material effect on the City for the year ended June 30, 2018.

State compliance requirements were tested for the year ended June 30, 2018 in the following areas:

Budgetary Compliance	Restricted Taxes and Related Revenues
Fund Balance	Open and Public Meetings Act
Justice Courts	Public Treasurer's Bond
Utah Retirements Systems	Cash Management
	Impact Fees

Management's Responsibility

Management is responsible for compliance with the state requirements referred to above.

Auditor's Responsibility

Our responsibility is to express an opinion on the City's compliance based on our audit of the state compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States; and the *State Compliance Audit Guide*. Those standards and the *State Compliance Audit Guide* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the state compliance requirements referred to above that could have a material effect on a state compliance requirement occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each state compliance requirements. However, our audit does not provide a legal determination of the City's compliance with those requirements.

Opinion on Compliance

In our opinion, the City of South Salt Lake complied, in all material respects, with the state compliance requirements referred to above for the year ended June 30, 2018.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the state compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the state compliance requirements referred to above to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance with those state compliance requirements and to test and report on internal control over compliance in accordance with the *State Compliance Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or to detect and correct, noncompliance with a state compliance requirement on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a state compliance requirement will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of the *State Compliance Audit Guide*. Accordingly, this communication is not suitable for any other purpose.
