amenities that support and preserve our great neighborhoods—I'd like to say it's our superpower.

The Department of Neighborhoods was launched this summer in response to resident input during our General Plan process. Residents identified safe, clean, and walkable neighborhoods as priorities. By uniting several City programs and services, Neighborhoods aims to help residents build a stronger sense of place by engaging more effectively with the community and city government. By grouping Parks, Homeless Strategies, Code Enforcement, and Animal Services together, we can provide a more seamless and efficient way to connect you with available city resources, services, and amenities and thus, empower residents.

*This spring, our South Salt Lake Arts Council hosted its fourth and most successful Mural Fest yet; 35 highly acclaimed murals now adorn the Creative Industries Zone.*

## Supporting Strong Neighborhoods is Our Superpower

New to South Salt Lake? As a resident, there are many ways you and your household can participate in SSL's growing and evolving community. Our residents represent great diversity and cultures that span the world, including a significant refugee and immigrant population. The landscape of our City is continually and rapidly changing, and many of you, being new to the neighborhood, may want to better understand how things operate. I wish to take a moment to share how as a City, we strive to provide the services and

If you can imagine, not even five years ago, there wasn't a Bickley Park or a westside expansion of Fitts Park, a Parley's Trail, Mural Fest, or a WinCo Foods. Since becoming Mayor in 2009, I have made it my priority to listen, gather input, and learn about what matters most to residents. We just adopted a new General Plan full of input from community stakeholders. While I support positive economic growth and sustainable development, I have also heard your concerns about protecting and preserving the feel and vibe of our single-family or R1 South Salt Lake neighborhoods. Let me assure you we will continue to maintain our existing zoning designations of R1. In our planning, much of our new dense or multi-family development is along public transit, like in our new downtown area, the Creative Industries Zone. My desire is to welcome new residents in multi-family projects like Riverfront, Zeller, the HUB of Opportunity, and Harmony 3900, while at the same time enhancing and strengthening our existing neighborhoods.

South Salt Lake continues to be On The Move, and now that you're here, we hope you'll settle down and stay awhile. My love for South Salt Lake is enduring. As a lifelong, 3rd generation resident, my roots in the community run deep. Building a great community is not done alone. I count on you to get involved and contribute in your own unique way. It has taken a lot of forward-thinking to get here, and we have a lot to celebrate—let's keep the momentum going!

*Our newly formed Department of Neighborhoods. Get to know them; they are here to serve you!*

## CITY COUNCIL CORNER

### Remembering Helps Us Honor

By L. Shane Siwik, District 5

On September 11th, 2001, the world changed and would never be the same. As we look back on the terrorist attack and subsequent war in Afghanistan that just ended after almost 20 years to the day (and the longest war in American history), I can't help but think of the thousands of people who lost their lives either in innocence or in battle securing a safer nation for us to enjoy today.

From the men and women of the New York Fire Department who ran into the towers, to the passengers aboard flight 93 who knowingly sacrificed themselves to avoid more deaths with the call, "Let's Roll", may we never forget the cost of freedom and the heroes who gave all.

Some want to erase 9-11 from our memories or ask that we not remember with such passion. NO. We must remember. Remembering helps us stand guard in the future. Remembering helps us avoid mistakes. But most of all, remembering helps us honor.

To those in our community who served, or lost loved ones over the past 2 decades as a result of 9-11, a grateful community thanks you for all you have given and all you have lost.

To the men and women who continue to serve to make us safer, whether as a local first responder or member of the military, may God watch over you and protect you as you put everything on the line for us.

*Note: Opinions expressed here may not be representative of all Members of the City Council.*

## What is Ranked Choice Voting?

This year our city council approved an alternative method of voting for municipal elections. What is Ranked Choice Voting (RCV) exactly? RCV is what it sounds like, instead of choosing one candidate, you rank candidates

according to your preferences (1st, 2nd, 3rd, etc.). If a candidate receives a majority of the first-choice votes, that candidate is elected. If no candidate receives a majority of the first-choice votes the candidate with the lowest number of votes is eliminated and transferred to the voter's second-ranked choice of the remaining candidates. This process continues until a candidate wins with an absolute majority (50%+) of the votes.

One thing to remember, you do not have to rank candidates. You still have the option to only vote for one candidate for each position if you desire. As we are getting closer to our municipal election on Tuesday, November 2, 2021, we encourage all residents to learn more about Ranked Choice Voting and what to expect on the ballot at [rankthevoteutah.org](http://rankthevoteutah.org).

## Speaking Up Against Domestic Violence

### *Message from SSLPD Chief Jack Carruth*

October is a time for all of us to speak up about domestic violence, raise awareness, and support the survivors of this all but too common issue. Domestic and Family Violence isn't always physical, and while there are many different forms, all are used to negatively control a person and their actions. Domestic violence is present in every community and occurs across all demographics, including age, gender, sexual orientation, race, socioeconomic status, religion, and/or nationality.

Another aspect of domestic violence is that the National Coalition Against Domestic Violence reports that Domestic Violence/Intimate Partner Violence accounts for 15% of all violent crime. Types of intimate partner violence include physical, sexual, stalking, and psychological aggression.

- 1 in 3 women and 1 in 4 men have been physically abused by a partner in their lifetime.
- 1 in 7 women and 1 in 18 men have been stalked by a partner during their lifetime.
- 1 in 15 children are exposed to domestic violence every year.

Knowing some of the signs of domestic, intimate partner or dating violence can help save a life. Beyond signs of physical aggression, other signs could be erratic mood changes, noticing threats or controlling behaviors of another's time, money, or resources. South Salt Lake Police is committed to helping victims take action in domestic abuse cases, as a source for intervention and as a resource if needed. As for any emergency, call 9-1-1 for an immediate police response.

## Halloween the Safe Way

### *Message from SSLFD Chief Terry Addison*

It's that time of year again. Halloween is just around the corner! Pumpkins are being carved, spooky décor is appearing all over the neighborhood, and everyone is putting the finishing touches on their costumes. The South Salt Lake Fire Department wants to ensure that Halloween is a fun time of year for our youth. Keep trick-or-treating safe for your little monsters with a few easy safety tips.

- When choosing a costume, stay away from long, trailing fabric and make sure the little ghosts and goblins can see clearly, with or without masks.
- Include some type of light as part of costumes, whether a flashlight or a glow-stick. Make them be seen.
- Use battery-operated candles or glow-stick in jack-o'-lanterns instead of candles. There are nearly 800 reported home fires each year where decorations (crepe paper or dried flowers) were the first item to ignite, and more than one-third were started by candles.
- Make sure all exit and escape routes are clear of obstructions or decorations, and that your smoke detectors are working.
- Please tell children to stay away from open flames including any candle-lit jack-o'-lanterns. Have them practice to 'stop-drop and roll' if their costumes catch fire.

With a bit of planning, you can ensure that your kids enjoy a fire-safe Halloween. It is awfully fitting that Halloween falls at the end of Fire Prevention Month. We wish you a safe and Happy Halloween!

## New to The ZONE

The South Salt Lake Creative Industries Zone (The 'ZONE') is more than a clever little lightbulb logo; it's about celebrating the 50+ "unique to their niche" artsy, crafty industrial businesses and the people behind them.

We dare you not to be inspired. Next time you travel through our neck of the SSL hood, let the lightbulb illuminate

the way through our Creative Industries Zone. While visiting, spot any of our 35 murals, grab a six-pack, tune-up your bike, or set it down and unwind with a locally-made craft cocktail.

Let us introduce you to a handful of businesses within 'The ZONE', all found within a few blocks in downtown South Salt Lake.

### FUZZY NATES BARBER SHOP AND SHAVE PARLOR

[FuzzyNates.com](http://FuzzyNates.com) | 2212 West Temple #4

Open since 2015, "Salt Lakes Most Okayest" and "Keep Your Standards Low" are the catchphrases that capture the vibe at Fuzzy Nates Barbershop. While they don't claim to be the best, they most definitely are authentic, and that's enough. Inside this bustling shop, Nate is the one with the phenomenal beard, and along with three other barbers, they take on the hair of hundreds of loyal clientele. Once in Fuzzy Nate's chair, you're family.

### HELL BABES HQ

[Hellbabes.co](http://Hellbabes.co) | 2212 West Temple #40

Born to Ride? *The Litas* (a global womxn's motorcycle collective) guide the fashion merchandise and accessories from this primarily online retail store. Rolling fast and burning gas, Hell Babes is women-run and recently decided that their new HQ was a good fit for South Salt Lake, complete with a retro gold velvet couch at their warehouse entrance.

### SUGARPOST METAL

[sugarpst.com](http://sugarpst.com) | 80 W Truman Ave

Garden art that doesn't suck. Yes, Sugarpst Metal creates that, and is also a full-service architectural metal workshop, crafting railings, so grandma has something to hang onto. They also create fun and functional art pieces, like monsters, machines, floral, fauna and fish. Bonus! You can spot several examples of their custom mailboxes around the Creative Industries Zone (Clever Octopus, Level Crossing Brewery, Grid City Beer Works, Counterpoint Studios, Pat's BBQ and Bicycle Collective).

This mailbox held up by an Octopus, is found in front of Clever Octopus Creative Reuse Center and was designed by Sugarpst.

### SALT CITY BUILDS

[saltcitybuilds.com](http://saltcitybuilds.com) | 2212 West Temple #4B

Go right through the back door of Fuzzy Nates and you'll discover another level of motorcycle culture at Salt City Builds. Specializing in all aspects of vintage motorcycle repair and resto-mods, brothers Seth and Rev Clark brought their backyard garage hobby shop to South Salt Lake in 2013, and well, the rest is Salty Bike Revival history.

### PROJECT SUNDAY

[Projectsunday.net](http://Projectsunday.net) | 2212 S West Temple #19

Since the beginning Project Sunday has been a work in progress. Starting with an empty loft and a group of college students, they figured it'd be more fitting to make their own art and furniture than buy it... and eventually opened up for business.

Behind their original, rusted-out sign in Tempest Park lies a shop that now has a long resume of creating space and custom pieces for some of Utah's favorite establishments and community shapers. After nearly a decade in business, the folks at Project Sunday count themselves lucky to handcraft the pieces and spaces that help support life in the city where they live.

### UNIQUE MOSAICS BY ANGIE

[uniquemosaicsllc.com](http://uniquemosaicsllc.com) | 75 W Truman Ave

Angie Halford Re is the founder and owner of award-winning Unique Mosaics, LLC, which is an internationally recognized custom mosaic tile artwork studio in South Salt Lake. With over two decades of experience, her mosaic tile designs and installations can be found in homes, historical restoration projects, National art museums and exhibits, and places of worship.

## Teens Get Tech-Savvy with Grant from RMP

Before COVID, when the Promise Best Buy Teen Tech Center (BBTTC) was initially awarded grant funds from the Rocky Mountain Power Foundation, the goal was to take teens on college and career exploratory field trips. However, during the 2020/21 school year, BBTTC staff had to shift gears and provide a similar experience for youth without the benefit of meeting in person.

Many of the teens participating in the program expressed tech interests in robotics and photography. To meet these interests, they were able to build and program two Vex Robots during the spring and exhibited them at the 'End of Year Showcase.' The remaining grant funds from Rocky Mountain Power were used to purchase 14 Canon digital cameras and start a weekly photography club. In addition, participating teens are now able to check out these cameras to develop their skills further.

Thanks to the Rocky Mountain Power Foundation for their generous grant, allowing our youth to expand their future careers through learning about technology!

## Meet Our New Promise Center Coordinator

Utah International Charter School

Kristen Van Riper

Kristen is the new coordinator at Utah International Charter School (UICS). She works hard to incorporate a wide range of athletics and academic pursuits into her program. She has built a partnership with the SSL Recreation Department in order to bring organized sports, including soccer, basketball, volleyball, and football, to UICS. Kristen feels passionate about bringing high-quality academic activities to the forefront of her program with the aim of inspiring the next generation of entrepreneurs, inventors, leaders, problem solvers, and pathfinders. She achieves this through offering a wide range of activities, such as tutoring, literacy, robotics, coding, cooking, sewing, gardening, readers theater, leadership, dance, global awareness, and so much more.
